## DETAILED ACTION

This Office Action is in response to the latest amendment filed on 2/6/02

### ***Claim Rejections - 35 USC § 112***

1. The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

2. Claim 2 is rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

Claim 2 recites "a method according claim 1 for adjusting a local clock of a digital data decoder, wherein the clock oscillates at a local clock frequency, the method further comprising the steps of" in the preamble. However, claim 1 is directed to a method of synchronizing the frequency of a local clock of a digital data decoder with the frequency of a program clock. It is not clear whether "the method" recited in the preamble of claim 2 is referred to "a method for adjusting a local clock ..." or "a method for synchronizing the frequency of ...". Further, the limitation "the clock" is not clear since there are two clocks mentioned in claim 1 (i.e., local clock and program clock). Further still, claim 2 recites "the program clock value" in line 8 and "the clock signals" in line 10. There is insufficient antecedent basis for these limitations in the claim. The applicant is

Art Unit: 2634

suggested to revise claim 2 so as to establish a better correspondence between claim 1 and claim 2.

3. Claims 3-5 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

Claim 3 recites "the program clock value" in line 7 and "the clock signals received at the decoder" in line 9. There is insufficient antecedent basis for these limitations in the claim. Further "a program clock value" in line 9 should be changed to "the program clock value" since this term has been mentioned in line 7.

4. Claims 13-15 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

Claim 13 recites "the program clock value" and "the program clock value" in lines 5-6. There is insufficient antecedent basis for these limitations in the claim. Further, it appears that the limitation "a difference between the local clock and the program clock values" in lines 7-8 should be "a difference between the local clock and the program clock differences".

***Allowable Subject Matter***

5. Claims 1 and 7-11 are allowed.
6. Claims 2-5 and 13-15 would be allowable if rewritten to overcome the rejection(s) under 35 U.S.C. 112, second paragraph, set forth in this Office action.
